The most important ideas are those with a high impact and high feasibility.This include creating a centralized data base a customizable dashboard,notifications,data security,and user access control.

The ideas with medium impact and feasibility,such as automated reporting, analytics,and intergrations,can be consiered for implementation ones the high -priority ideas are completed.

Use analytics:
Use analytics to track each candidate prograss and identify trends. This will help with decision-making and identifying areas that need improvement.

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H key** on the keyboard.
